

FLURO®-Gelenklager GmbH

Mini Heroes

Smallest designs with
highest precision.

Corrosion-resistant for highest hygienic demands.

In order to meet the specific requirements of the chemical and pharmaceutical industry, medical technology and the food and beverages industry, we base the manufacture of our corrosion-resistant product series on the Hygienic Design Standards.

Our materials, the design and the surface properties guarantee:

- 👍 Optimum **hygiene**
- 👍 Simple and safe **cleaning** (CIP - Cleaning in place)
- 👍 Highest **corrosion resistance** -
even in acidic and alkaline environments

Our strengths are your advantages

- ✓ **Full range provider** in the field of spherical plain bearings and rod ends
- ✓ Robust, long-lasting **quality products** for the highest demands
- ✓ Tailor-made **special solutions** for individual customer requirements
- ✓ **Made in Germany** - 50 years of German engineering
- ✓ Standard sizes **available from stock**
